In accordance with the General Data Protection Regulations (RGPD), any competitor who has communicated personal data to the FFVoile can exercise his right of access to data concerning him, have them rectified and depending on the situation, delete or limit them, and oppose it, by contacting dpo@ffvoile.fr or by mail to the head office of the French Sailing Federation, specifying that the request relates to personal data.

20 PRIZES

Prizes will be awarded to each participant with the exception of any cash prizes.

21 RESPONSIBILITIES OF THE ORGANISER AND COMPETITORS

- 21.1 RRS 3 states: "The responsibility for a boat's decision to participate in a race or to continue racing is hers alone". By participating in this event, each competitor accepts and recognises that sailing is a potentially dangerous activity with inherent risks. These risks include strong winds and rough seas, sudden changes in weather conditions, equipment failure, errors in maneuvering the boat, improper navigation of other boats, loss of balance on an unstable surface. and fatigue, leading to an increased risk of injury. The risk of material and / or bodily damage is therefore inherent in the sport of sailing.
- 21.2 Skippers participate in the event at their own risk and fully accept that choosing to do so is their own responsibility. **It is the sole responsibility of each skipper to decide whether or not to take the start of the event or continue with it, as regards his or her competence, the equipment at their disposal, the wind strength, the weather forecast, etc.** Any information that any member of the OA is in a position to provide before or during the event, for example a gale warning, will constitute one detail among others upon, which the skipper may base his or her decision without the OA being accountable.
- 21.3 The responsibility of the OA and its partners is limited to ensuring the smooth running of the event; any further responsibility that the OA may agree to would have to be contractual and explicit. Furthermore, any checks the race committee undertakes, shall have the sole aim of ensuring that the current race rules and documents have been adhered to.
- 21.4 The monitoring, and in particular telephone monitoring, as well as fleet tracking that the OA might provide, should be considered by skippers as optional and uncertain, and under no circumstances as an extra safety measure which may be relied upon. Any request made to a member of the OA would not make the OA accountable unless the latter has expressly agreed to this request, either directly or through one of its official spokesmen/women. This particularly applies to various requests for help and even assistance at sea.
- 21.5 Skippers will be held personally responsible for any material or physical damage to themselves, their boat, other boats, or any third party or the property of a third party. Skippers shall be accountable to the OA for taking out all the necessary insurance to cover civil liabilities and damages incurred for the race. The absence of third party liability in no way makes the OA or its partners accountable.
- 21.6 Reminder of RRS 1.1: all boats are compelled to offer all possible assistance to any other boat or person in danger, should they be in a position to do so, in accordance with RRS 1.1 and the international measures in force. In this case and after changing course, the skipper must immediately supply Race Direction with all the details required to ensure there is the possibility of the International Jury later awarding a time bonus for changing course.

22 REFUNDS IN THE EVENT OF CANCELLATION

In the event of cancellation of the event for any reason, the organiser undertakes to reimburse the registration fees to competitors as follows:

- In the event of cancellation due to factors falling under the organiser's responsibility, the fees will be fully reimbursed;
- In the event of cancellation for reasons of force majeure as defined by law and case law, the organiser will reimburse 50% of the registration fees if the event that contributed to the force majeure occurs more than one month before the departure date, and will be released from this obligation to reimburse if the event occurs within less than one month of the departure date.

23 USE OF RIGHTS

The owner or user of the boat and any possible sponsor, by the sole fact of their participation, agree that the OA can use, for promotional purposes or other, any text, photo or video footage relating to their participation in the event to be published or broadcast via the press, television or internet (non-exhaustive list)

Set the scene with this memory aid: the 5 Ws

- Who (xxx on board xxx)
 - What (on the CIC Med Channel Race)
 - When (2nd day of racing)
 - Where (Med)
 - Why (we've got 25 knots, a big swell and we've just passed this boat)
- Tell us about your sporting choices, your options, your technical problems, your repairs, the maritime traffic, etc.
 - Give us information about your strategy and your position in the fleet
Ex: film VHF exchanges if you are within range of another competitor, Iridium exchanges with land ex: film your routings
 - Give us ETAs for key points of the course, on the approaches to islands
 - Tell us about the different weather systems you encounter and describe the landscape.
If possible, film the manoeuvres and comment on them

Tell us about the moments of respite, meals, watch changes (if double), waking up, the music you listen to, etc...

Film your encounters at sea: cargo ships, dolphins, fish, etc.

Involve the crew or co-skipper.

4/2 Photo (advice Jean-Marie Liot)

To illustrate the press articles and the Sirius social networks: on the technical side: photograph scenes of life with your co-skipper (chart table, sleeping, meals, any repairs), selfies alone or together. Get some sea spray (from the cockpit, for example, with a wave on the coachroof). Don't hesitate to use a pole to hold the GoPro (in photo mode) outboard. Try night scenes. If you are photographing something outside the boat (an encounter, another competitor, etc.) include a reference to your boat: lifelines, bow, cockpit. Send the sizes you want (at least 2000 pixels wide if possible). And keep the full-resolution photos on your computer so you can use them again later. Don't hesitate to give us a USB key or hard drive as soon as you arrive so that we can copy your media. We'll return everything to you directly afterwards.
