- 7th CIC Med Channel Race 2025

2nd participation in CIC Med Channel Race

● SKIPPER'S MOTIVATION

Together with Louis, I form a strong team that complements each other very well and works together seamlessly. He brings extensive offshore sailing experience, which is a major advantage for me. My background is in inshore racing on J70 and Longtze, where precision and quick decision-making are key. This season is my first in Class40 and marks an important new step for me. Moving into offshore racing is a demanding challenge that pushes me beyond my limits. It offers me the opportunity to learn a lot and to further develop as a sailor. I am looking forward to gaining new experiences at sea and meeting new people who share the same passion.
